DataForSEO: Monthly Cost Estimate and Test Results

Prepared for senior review · Test date 5 Nov 2026 · Test website: logicalcreations.net

Part 1. Monthly cost estimate

Estimated monthly DataForSEO cost, per website. **Low** assumes a website with a real search footprint. **High** adds a 25% safety margin for budgeting.

Website size	Keywords tracked	Low (USD / month)	High (USD / month)
Small website (under 100 pages)	50	3.90	4.90
Large website (500 to 1000 pages)	100	5.07	6.35
Business website (over 1000 pages)	300	9.18	11.50

What each website size gets every month

What we check every month	Small	Large	Business
Keyword ranking on Google (daily)	50 keywords	100 keywords	300 keywords
Local map ranking (weekly)	50 keywords	100 keywords	300 keywords
Website pages audited (monthly)	Up to 100	500 to 1000	1000+
AI answer visibility (weekly)	Yes	Yes	Yes
Google Business Profile and reviews	Yes	Yes	Yes
Keyword research and search volume	Yes	Yes	Yes
Backlink checks	Yes	Yes	Yes

Costs are calculated from DataForSEO list prices and measured test results. The 100 to 500 page range is not a separate group; budget with the large-website figure.

Part 2. What the API returned (test results)

All figures below are from the live test on logicalcreations.net on 5 Nov 2026. Each table is the raw answer from DataForSEO, shown in plain language.
